The Contest

On July 4th the Western Globe's  
Great Circulation Campaign closes, and  
some one of the contestants will be the  
possessor of a 1916 Chevrolet Car, or  
it's equivalent in cash. From the re-  
turns to date the contest is going to be  
close, at present there is very little dif-  
ference between the highest and lowest,  
a few dollars only being necessary to  
change the entire standing. We are  
publishing herewith the standing of  
candidates up to Monday night—so  
far as returns have been made to us.  
We are of the opinion that the contest-  
ants are holding back votes for the  
finish—it looks like it, anyway.

Here is the standing of all candi-  
dates who have made returns up to  
Monday night. Candidates who have  
not been heard from have been omit-  
ted from the list.

You have just 13 more days to get  
your votes to the Campaign Manager—  
your chances are just as good as they  
were on the day the contest opened.  
The worker will win out in the end,  
and the prize is worth working for.

## GET BUSY!

## WHY?

A subject for much comment at  
the present time is why so few,  
if any, of those employed at the  
Dominion Experimental Farm at  
Lacombe have enlisted. A prominent  
Settler has received verification of the fact that there  
is now about 12 eligibles on the  
staff. The best efforts of the re-  
cruiting officers in the regiments  
set apart for the Red Deer con-  
stituency have so far had little  
appreciable effect on them. The  
matter is being brought to the  
notice of Leader Mitchener and  
Mr. Puffer, M.L.A., and it is  
expected some action will be  
taken.—Erskine Review.

In connection with the above  
item from the Erskine paper, we  
spoke to Supt. Hutton about the  
matter. Mr. Hutton says that  
his department is doing what it  
can to help recruiting, and is  
going so far as to keep those  
employees who enlist on the per-  
manent pay-roll. He is quite  
willing to take suitable married  
men or returned soldiers; in  
fact, will give them preference.  
The employee who enlists from  
the Lacombe Experimental Sta-  
tion has his situation assured.  
When work is to be done Mr.  
Hutton takes the men available  
for the job, whether married or  
single. He cannot compel a man  
to enlist. If those officers who  
are seeking recruits will furnish  
him with men unfit for military

service, who are suitable for the  
work on the farm, he will gladly  
take them on. In the meantime  
it is up to the eligible men on  
the farm to say whether or not  
they have the interests of the  
Empire at heart. No one can  
compel them to enlist at present.

MERCHANTS BANK OF  
CANADA PRESENTS VERY  
SATISFACTORY REPORT

The Merchants Bank of Canada,  
that well-known Canadian insti-  
tution whose balance sheet is now  
fast approaching hundred-million  
dollar dimensions, has made its  
report for the year ended April  
29, and exhibits a notable in-  
crease in all classes of business.  
As indicating the considerable  
measure of public confidence en-  
joyed by the bank, and the in-  
creasing wealth of the commu-  
nity, it may be pointed out that  
its interest-bearing deposits in-  
creased about five millions dur-  
ing the year, its non-interest-  
bearing deposits about four mil-  
lions, and its circulation over a mil-  
lion. The total volume of funds en-  
trusted to the bank is well over  
10 millions larger than in 1915,  
and thirteen millions larger than  
before the war, and totals just  
under 82 million dollars.

The holdings of cash and liquid  
assets are of great strength, a  
mounting to more than 20 mil-  
lions of actual cash and equiva-  
lent cash, which, with gilt-edged  
investments and call loans, com-  
bine to produce a total of \$40,  
960,486 of liquid resources, be-  
ing 50 per cent. of the public  
liabilities. A year ago these  
liquid items totalled \$32,085,672  
and two years ago they were  
\$24,932,404. It will be seen that  
the liquid reserves have not only  
increased in volume, but are very  
much higher in proportion to li-  
abilities. The item of current  
loans and discounts in Canada,  
which was sharply reduced dur-  
ing the year of the beginning of  
the war, is now on the upgrade  
again, but comparatively slowly,  
as the demand for such accom-  
modation, by good borrowers, is  
still restricted, it is now \$48,  
835,565, against \$47,401,858 in  
1915, and \$53,603,673 in 1914.

Profits in the year just ended  
were naturally not upon the pre-  
war scale, but were amply suffi-  
cient to allow payment of the  
regular dividend, after full pro-  
vision of contingencies and pay-  
ment of the heavy war tax of  
the Dominion government, and  
make a small addition to the  
profit and loss surplus. Owing  
to the large amount invested in  
income-bearing securities and  
municipal government bonds, etc.,  
—towards the end of the fiscal  
year, and the improvement in  
commercial business, the outlook  
is for an improvement in earning  
power during the present year,  
especially as no further provision  
for depreciation or contingencies  
is anticipated. In the meantime  
both shareholders and clients of  
the bank have occasion for satis-  
faction with the management  
and the directors for their wise  
and consistent policy during the  
past three years of unique con-  
ditions.

## ALBERTA'S WEED PROBLEM

Every farmer his own weed  
inspector is the motto of the  
second annual convention of the  
departmental and municipal  
weed inspectors of Alberta, which  
will be held in Claresholm, June  
27, 28, and 29. This is a good  
motto, but it is not one that is  
observed to the letter by the  
corporations that are farming  
tens of thousands of acres, and

by the owners of idle land. The  
working farmer, who has no more  
land than he can handle com-  
fortably will look after the  
weeds fairly well, but he may  
have as a neighbor a concern  
that operates 20,000 acres, and  
on the other side of his place  
may be land that has been cul-  
tivated and has been allowed to  
fall into disuse. That means that  
he is between two weed-breeding  
areas, and he is forced to do ten  
times the work that he would  
have to do were the adjacent  
land as well cultivated and ten-  
ded as his own.

Then on the highways there  
may be weeds—there are in many  
localities. What encouragement  
is it to the thrifty farmers to  
keep cleaning up the weeds when  
from the neighboring farms and  
roads come millions and millions  
of seeds?

The province has a tremendous  
work ahead of it with regard to  
weeds, but there should be nei-  
ther politics nor vacillation in the  
policy of extermination that is  
being forced on it.

A campaign of publicity should  
be started in the hope that a  
few farmer and landowner in  
Alberta may be made familiar  
with the millions of dollars in  
losses that face them if they do  
not do their duty, and the govern-  
ment itself should operate to  
clear up the idle land and the  
roadways.

This should be wholly a govern-  
ment matter, and not a municipal  
matter. The Department of Agri-  
culture should have a squad of  
expert exterminators and inspec-  
tors on the job. Many of the  
municipalities are too sparsely  
settled to be handled by local  
administrations, and many of  
the latter are too negligent. The  
government should deal with its  
telephone department. It should  
engage competent men whose  
business is weeds and their sup-  
pression.

It will be necessary to appro-  
priate more money for this pur-  
pose, but the additional outlay  
will be infinitesimally compared  
with the loss that will be expe-  
rienced if there is not a general  
campaign of extermination.

If Hon. Duncan Marshall feels  
that the task is too big for him,  
he is too busy to give the  
personal attention that he  
promised to the U.F.A. last Jan-  
uary, this is the time for him to  
speak up.

CANADIANS RETOOK  
LOST GROUND  
IN EASY STYLE

London, June 15th.—Phillip  
Gibbs, writing in the Chronicle,  
an account of the Canadian of-  
fensive in the Zelleke says:

"It was a great point of pride  
with the Canadians to recapture  
their lost ground themselves.  
Their losses were not heavy in

this counter attack, which was a  
performance of Katherine Stan-  
son, the loop-the-loop girl, there  
will be a programme of seven  
free vaudeville attractions which  
will be given twice a day.

Another big attraction will be  
the "March of the Allies," which  
will be participated in by men  
dressed in the uniforms of all the  
allies, who will march past ac-  
companied by massed bands.

War trenches are to be dug on  
the grounds, and in them there  
will be returned veterans as  
guides to explain all about  
trench life.

The racing programme is a  
very attractive one, and 36  
races will be run off during the  
week. The programme is a nice-  
ly varied one, and there will be  
a splendid collection of runners  
and trotters entered.

Midway attractions will be sup-  
plied by the World at Home  
shows, and in this glittering dis-  
play of twenty shows there will  
be found mystery, mirth, and  
educational entertainment.

Entries for the Exhibition,  
which closed last week, have been  
very satisfactory, and insure  
keen competition in the various  
classes.

LONDON FEELS THAT WAR  
WILL BE ENDED BY  
NEXT YEAR

London, June 15.—Signifi-  
cance is attached to a sentence  
embodied in a semi-official French  
communication received in Lon-  
don today, inasmuch as it seems  
to draw the attention of the  
public to what is considered the  
serious failure of Germany's re-  
cent strategy.

"It seems, since the Vaux al-  
fair," the sentence reads, "that  
the Germans fronting Verdun are  
maintaining an attitude of ex-  
pectation in view of the menace  
of events which they feel are  
coming increasingly imminent."

LONDON FEELS THAT WAR  
WILL BE ENDED BY  
NEXT YEAR

London, June 15.—Signifi-  
cance is attached to a sentence  
embodied in a semi-official French  
communication received in Lon-  
don today, inasmuch as it seems  
to draw the attention of the  
public to what is considered the  
serious failure of Germany's re-  
cent strategy.

"It seems, since the Vaux al-  
fair," the sentence reads, "that  
the Germans fronting Verdun are  
maintaining an attitude of ex-  
pectation in view of the menace  
of events which they feel are  
coming increasingly imminent."

This statement is generally in-  
terpreted, in the light of public  
expectation, that the time is  
rapidly approaching for an im-  
portant entente allied offensive.

Professor Albert F. Pollard, of  
the chair of English history in  
the University of London, lectur-  
ing here today on the progress  
of the war, said he anticipated  
a great offensive by the allies  
on the western front before long,  
but that the people must not ex-  
pect the war to end before next  
year. The utmost to be hoped  
for this year, he said, was the  
defeat of Austria, a virtual set-  
tlement of the Balkan difficulty,  
and the driving back of the Ger-  
mans a considerable distance on  
the western front. The final de-  
feat of Germany could only come  
some time next year, the speak-  
er added, after a winter of dis-  
content such as Germany had  
never known, and after another  
naval battle.

Prof. Pollard's anticipations  
reflect the prevalent ideas in Lon-  
don. The view is held here that  
Germany must make a serious mis-  
take in strategy, when she permitted  
Austria to withdraw half of her  
effectives from the Russian front  
for the operations against Italy,  
after having brought her own ex-  
penses from the Russian front to  
Verdun, which apparently has  
had the result of enabling Russia  
to make a surprisingly success-  
ful drive in Galicia and Volhynia.  
It is further considered that  
the recent naval battle de-  
prived Germany temporarily of the  
means for prosecuting a com-  
bined military and naval offen-  
sive in the Riga region, and thus  
countering the Russian drive,  
which, it is now expected, is  
likely to go on to fresh success-  
es, as it is believed it will be  
extremely difficult to reinforce  
the Teutonic allies on the Rus-  
sian front.

Gin Pills  
FOR THE KIDNEYS  
How They Cure

"I suffered from Kidney Trouble for  
several years, and tried numerous remedies  
and doctor's prescriptions without permanent  
benefit, or any benefit at all. After seeing  
about Gin Pills, and as it is a well known  
fact that the kidneys are the most important  
of the body, I decided to try Gin Pills.  
One single pill gave me great relief. I have  
now taken four boxes of Gin Pills and find  
myself completely cured. No more bad  
humors—no increase in weight—clearer—fresh  
color—more strength and vigor. This is  
what Gin Pills have done for me."

Joseph Marshall, the well-known Rimbey citizen, returned yesterday from the State of Washington, where he has spent the last few months. While Washington is a fine State, Joseph could not find where it had anything on Alberta, and is pleased to be back. His family will remain at Langley, Wash., for the summer.

Mr. Parsons, of Denike's jewelry store, has received the sad news that his brother has been killed in action in France. The casualty occurred during the hard fighting in June, but owing to the time it takes to list the casualties in Ottawa, official news was only received this week. Deceased was well-known to many in Lacombe, having visited here several times with the Varsity Hockey Team.

On Tuesday and Wednesday, June 27-28, at the Experimental Station, Lacombe, Messrs. Morrison & Johnston, Limited, will show the International 8-16 Mogul Engine and Automatic Lift Oliver Gang Plow at work. All farmers in the district are invited to the demonstration, and who who wish to avail themselves of the opportunity will be taken to the farm free of charge by cars run from Morrison & Johnston's Garage each afternoon.

**RECEPTION AND PRESENTATION FOR REV. AND MRS. SCRAGG**  
There was a pleasant social gathering last Thursday evening, at the Methodist Church, in honor of Rev. and Mrs. E. T. Scragg. Regrets for parting, and good wishes for the pastor and wife in their new field of labor, were the general sentiments expressed.

A tea set of Limoge china was presented by Dr. Shurge on behalf of the congregation. Miss Hiron and Mrs. McDonald contributed musical selections. Mr. and Mrs. Scragg have been with us during a period of great national trial, and their efforts on behalf of Christianity, and every worthy cause, have won the highest respect and appreciation. They will be followed by the kindly interest and true wishes of the many friends they have made in Lacombe.

**SCOVGAARD CONCERT**  
There are more ennobling things in life than a ridiculously funny story. One of these is music and song. These latter are worth while, and they were worth while to those who had the good fortune to be present at the concert theatre on Monday evening when Skovgaard and his excellent company gave an enter-

tainment such as is seldom heard in Lacombe; more's the pity, and there's a reason for this. If some ridiculously funny farce had been on the bills at the Comet that evening the house would have been packed, upstairs and down, but when something of "real class" comes along the audience is not much larger than a corporal's guard. Under these circumstances it is any wonder that "classy" entertainments pass the town by?

The members of the company were all present with the exception of Miss Hawkins, who was left behind at Calgary very sick. But as that every person got their money's worth in abundance. Each and every member of the company is a master in their respective work. Yes, Skovgaard is a past-master. And what more can be said than that? His playing on the violin will not soon be forgotten by those who had the pleasure of hearing him.

The following artists appeared: Skovgaard, the Danish violinist; Clara Freiler, mezzo soprano; Francis W. Cowles, baritone; Alice McClung-Skovgaard, pianist; Molly Byerly Wilson, contralto.

## ALEXANDER McQUEEN IS KILLED IN ACTION

Edmonton, June 15.—Word was received in the city this evening of the death from wounds in France, on June 4th, of Lance-corporal Alex. McQueen, youngest son of Dr. D. G. McQueen, city, former moderator of the Presbyterian general assembly. He was a member of the Princess Patricia's, having left the city last summer with the first university corps. Another son, James, is a captain in the 63rd battalion, now in England.

## AT THE REX

THE BEST IN MOTION PICTURES

## "THE SOUL'S CYCLE"

This beautiful picture, featuring the beautiful motion picture star, Margaret Gibson, and a specially engaged cast of artists, will be shown at the Rex tonight (Wednesday). Two De Luxe Edition Master-pictures have been shown in Lacombe up to the present. Those who have seen one or the other will be sure to see this one, and those who have not been so fortunate should grasp the opportunity of seeing "The Soul's Cycle."

It is a five-part picture, and is a drama of yesterday and today being founded on the theme of reincarnation. In last week's issue of the Globe we gave a lengthy write-up of this picture, together with the latest and consider it quite unnecessary to say anything further concerning its merits, for more cannot be said. See it at the Rex tonight (Wednesday).

## FAMOUS PLAYERS

Although we are unable to give the title of Saturday night's picture—the Famous Players' production, yet we can assure the moving-picture fans of Lacombe and district it will surpass the average production by its high-class picture producers, so don't stay away because you do not know the title of the picture. Two full shows will be given as usual—7.30 and 9 p.m. You will confer a favor on the management by being on time and taking the seats next to the wall, thus saving yourselves and others the inconvenience of moving about while the pictures are on the screen. Thank you.

## GREAT NORTHERN OIL AND ASPHALT COMPANY, LIMITED

We have just received an invitation to a banquet being arranged in Edmonton by shareholders in the above company, in honor of Mr. Coyne. In sending us the invitation, Mr. Coyne says some very nasty things about us, but if he had used slightly better grammar we would not feel quite so bad. We will bet Mr. Coyne a nickel that his seventy loyal subscribers in this community would sell out their shares for less than they paid for them, so quickly that it would make his head swim. The banquet is the limit, however. You pay a dollar for a ticket, and then get a cold hand-out at 11 o'clock. And that is not all. You are being held up for another quarter to buy a small token by which to remember the cold hand-out. This makes \$1.25 in cold cash—just equal to about 1000 shares in the company. And when you blow the \$1.25 you have nothing to show for it next morning but the 25c souvenir, whereas if you purchased the shares of the company you would have a big bunch of certificates to hand-out to your children's children. Here is Mr. Coyne's letter just as he has written it. It is a little different, and jerky in style, but probably you can get his meaning:

Edmonton, Alberta,  
June 10th, 1916.  
Editor Western Globe—

"Dear Sir—I am enclosing you an invitation to the event to be given me and my wife at the MacDonald Hotel on June 27th. Your disgraceful attack on me in your paper, last October, surely looks as small as it was, when this proof of loyalty to me by the shareholders of this public company, incorporated by the government of the Province, which I suppose your paper caters to.

That I have the esteem and confidence of over seventy of the most prominent men in your community speaks well for your scurrilous statements about me and my company were just what would be expected from the columns of a paper edited by one of the conceptions such as yourself. The general consensus of opinion expressed to me in commenting on your slurs, was that you do not count for much as a shaper of public opinion in the Lacombe constituency.

Yours truly,  
A. F. A. COYNE.

Now, is that not a nice way to talk about us? Read the announcement of the banquet to be given in Mr. Coyne's honor. Notice how they are after that 25c for the moment of the cold lunch. Then take a glance at the names of some of the banquet committee. Here is the announcement sent us by Mr. Coyne; that is, the salient points:

### Notice of Alteration of Price

It has been decided to alter the price to \$1 per ticket as previously arranged, and to make the evening a dance with cold supper at 11 p.m.

It is proposed to give a small silver shield as a memento of the occasion, and a collection is being taken up. Up to the present

this fund is growing nicely. Send in your name on the roll of supporters.

The Banquet Committee:  
H. Schollermeier,  
W. Knorr,  
S. Swartz,  
the Presentation Shield.  
Don't forget the 25c for the memento.

### BRITISH FLEET GOT INTO BALTIC

Petrograd, June 14.—Reports persistently circulated here, though, of course, they would not receive official confirmation, even if correct, that during the recent Jutland naval battle a British squadron of the latest dreadnaughts and battle cruisers made its way through the channel between Denmark and Sweden and reached a certain Russian port where the warships are now at anchor. The passage of the narrow was conducted in the face of attacks by a German destroyer flotilla. The Germans are fully aware of the fact that British warships in overwhelming strength, and mounting guns without any equal in the whole German navy, are now commanding the naval situation in the Baltic and tightening the strangle hold blockade on the German empire's throat.

### CHURCH UNION CARRIED BY OVERWHELMING MAJORITY

Winnipeg, June 14.—The Presbyterian church voted today to enter into organic union with the Methodist and Congregational churches. The majority, as was also universally expected, was overwhelming.

For the first time in many years, the assembly voted as the roll was called, each commissioner rising in his place and answering "Aye" or "Nay." The vote as it was officially recorded, was 406 to 88. This is much the largest vote ever recorded on the subject in an assembly. Ministers voted for the cause more largely than the laymen. Of the ministers, 222 voted for and 45 against. Of the elders, 184 voted for and 43 against.

The east voted four to one for union, and the west five to one for union. In the east the total for union was 253 against 62. In the west the total was 153 for union and 26 against. The number of absentees or not voting was 117. There was no demonstration of any kind when the final decision was reached.

### OFFICERS NOT TO HAVE MARRIED QUARTERS

Camp Hughes, Man., June 14.—Married quarters for officers at Camp Hughes are under the ban. Ever since the camp opened there has been an agitation that quarters be set apart for the wives of officers. It has been under consideration for some days by the headquarters staff and the orders for tomorrow contain a clause stating that the establishment of such quarters cannot be approved.

### GERMANS REGARD THE CONDITION OF AUSTRIANS AS HOPELESS

London, June 14.—The Daily Mail correspondent at Petrograd says:

"The number of German officers in the Austrian army is proved in a curious way by the examination of prisoners."

"Among the men 15 per cent. are Germans and among the officers 20 per cent."

"According to reliable information it does not appear that Germans are now sending a large number of troops to the assistance of their allies. The estimate of four divisions, said to have been dispatched from the region south of the Lida, is considered exaggeration."

"This shows that the Germans regard the position of the Austrians as desperate. Only once before have they sent them direct aid and then they sent troops to the Carpathians at a moment when the Austrians were in a desperate condition."

"General Brusiloff, in a message today, said: 'By the help of God, and relying on the strong and unwavering spirit of the troops and the support of the nation behind them, I firmly and confidently hope to gain such a success as will utterly crush the enemy.'"

### GERMANS ARE BADLY BEATEN BY RUSSIAN FLEET

Copenhagen via London, June 14.—Describing the Baltic fight, the Dagens Nyheder says that the Russian squadron won an important victory. The Russians had six destroyers and a submarine and came at such speed that the Germans were taken completely by surprise, and only fired one shot, then making for port in the utmost haste.

"It is believed," says the paper, "that 12 merchantmen were sunk while a German armed trawler, which arrived at Nykoping, had 150 aboard from a German destroyer that had been sent to the bottom. The German auxiliary cruiser was the Konig Von Sachsen, which was also sent to sink, and it is supposed that all of her crew were drowned."

### FOOD SCARCITY REACHES SERIOUS STAGE IN GERMANY

London, June 15.—Food riots raged in Vienna all Monday night, according to an Exchange Telegraph dispatch from Bern. Most of the rioters were women. When policemen tried to disperse

them street fighting of great violence followed.

London, June 15.—The Central News has received from a thoroughly trustworthy source a comprehensive report regarding the economic conditions existing in Germany and Austria-Hungary.

The problem to which greater attention has been devoted during the last month or two has been the meat problem. The press has been allowed to publish the most disquieting complaints on the subject, and it has been made quite clear that there is a real and serious shortage of cattle, and that for weeks past the markets have received nothing approaching the normal number of beasts. The poorer classes are being turned into compulsory vegetarians, and even persons of moderate means cannot buy meat for the good reason that there is no meat to be bought except at extortionate prices.

A possible danger from the restricted diet to which most people in Germany are condemned is beginning to attract public attention. Prof. Rubner, a well-known medical authority, in a recent letter, pointed out that a defective organization of the means of nutrition only embittered the population and did not even insure the proper utilization of the country's different climatic conditions, following different seasons and occupations, and to widely different regimes must, he said, produce disastrous consequences.

The tone of the majority of intercepted letters continues to be desperately pessimistic. Letters recently noted speak of "business growing worse from month to month," of the increasing number of women in receipt of allowances, of "business providing hardly anything," of the absence of purchasers, etc., but it is in a recent letter, pointed out that a detective organization of the means of nutrition only embittered the population and did not even insure the proper utilization of the country's different climatic conditions, following different seasons and occupations, and to widely different regimes must, he said, produce disastrous consequences.

"Hamburg, May 6.—Many a day I spend hours in the streets going from shop to shop in search of provisions and finding none. I am astonished that the people still preserve some measure of calm."

"Brunswick, May 3.—I am continually hungry. Meat and sausage I have not eaten since I don't know when—nothing but fish and cheese. There is no possibility of getting any butter, lard or potatoes. For one whole week I had no potatoes. One really does not know on what one can live. It is dreadful."

"Gleivitz: Aunt Anna has written to say that people are starving in Westphalia."

have no idea of the state of things in Hamburg where food is incredibly dear."

"Oberschlesien, May 5.—Food is three times as dear as it used to be, and there is no meat, butter, or drippings—nothing but uncooking work. It is enough to drive you mad. The devil has come from hell, to Oberschlesien."

"Posen, May 5.—The misery here is ghastly."

"Weiner-There is famine in Germany. The rich eat meat and all they want, but the poor are dying of starvation. The poor fellows in the trenches are complaining dreadfully of hunger, too."

"Still, though there are many circumstances which justify the belief in the growing restiveness of the masses with the internal conditions created by the war, it is evident that for the present in spite of food riots and street demonstrations, organized labor, as represented by the trade unions, continues to support the war policy, and neither the imminence of starvation or the prospect of military defeat is likely to move it from this attitude."

**DUNLOP TRACTION TREAD**

The traction engine was made to grip. So was Dunlop Traction Tread. Nothing has yet taken the place of the traction engine for long, continuous service. We don't think any other tire will ever take the place of Dunlop Traction Tread for the same function.

In a certain sense, Dunlop Traction Tread is larger than Canada. "Traction" is a name is limitless. Near imitations are to be found. Men have written from various portions of the world seeking the agency.

"Traction" holds the Canadian transcontinental tire record; has never failed as a skid-resister; made it possible for punctures to be a forgotten evil; drove out the dust nuisance; made auto motting by women more general; gave men all over the country a new idea of mileage.

In short, Dunlop Traction Tread has popularized motoring; and, for the first time in the history of the motor car, has made Safety a certainty.

## Bad Lands News

"Cum Grano Salis"  
We note in the issue of the Western Globe of May 31st (which we received on the 6th of June) that the Owl, the latest addition to the Globe's menagerie, has attempted to get after our goat, as his friend, the Bentley correspondent, expresses it in the same issue. We have not seen this Owl to our knowledge, and must therefore judge it by its doings and sayings. We would therefore place him as being an animal of immature age and hardly fledged. In fact, we should call him an owlette, or little owl. He begins by saying that it took us three weeks to find out he was putting one over on us. In this our little Owlette is hardly generous. Some weeks ago we stated that we got our paper one week late, and our rubbish being written a week ahead would make it three weeks between when we saw an article and our reply thereto could appear. We do not pretend any originality in the Bad Lands news, and the Owlette correctly calls us the editor of that column. That our Owlette must certainly be an immature bird is quite recently from school, is evidenced in the pains he goes to to prove that our nonsense was a nonsense. We are, however, surprised to find that one of such great erudition and learning didn't know our little Owlette when he saw it, and had to say he had seen it in a book of Proverbs. Perhaps he can now tell us from which book of nursery rhymes we took our allusion to "The Grand Duke of York—He had ten thousand men. He marched them up, He marched them down, And he marched them back again."

The gist of the Owlette's little hookings is apparently to prove that, because and on account of certain persons, things, happenings, dwellings, etc., etc., it would be impossible for the Grand Duke of York to exist, or for us to have ancestors 2,000 years ago. We will let the Grand Duke of York, his heirs, executors and assigns, take care of his ancestry, but we will join issue with our little Owlette on our own account. We claim, and we believe the claim is conceded by most students of genealogy that we are descended from Adam and his wife, Eve, as they existed a few days more than 2,000 years ago (we are afraid to try to be anywhere near exact in case our Owlette puts us right to the dot) we must have had ancestors alive at the date he kicks about. Further, we do not claim, but the claim is made for us by a great many nations that being Scotch we belong to one of the lost ten tribes. In that case we are lineal descendants of Abraham, and if the Owlette will look up the eleventh chapter of the book of Genesis he will find Abraham's pedigree traced. No wonder as the flood was more than 2,000 years ago we must have had ancestors at that date. Therefore, we had ancestors 2,000 years ago, Q. E. D. We are all in for fun, and enjoy a joke as well, whether it is as us or on the other fellow. But our Owlette seems a terrible stickler for exactness; even a joke must be corrected to Greenwich time and a school history book. This being so, why is our Owlette so inexact as to state that we would be at the Rex on a given date when he knew we wouldn't be there. Take some of your own medicine, little Owl, and if you will have others be exact set the example by being so yourself. In fact, we will tell you a joke. "Look before you leap." This will be printed on June 21st, although written on the 6th, so don't, dear Owl, think it has taken us three weeks to find out that you are trying to put one over on us. This summer an exhibit of ancient relics will be held at Weisville, Gull Lake, or Aspen Beach, whichever is its right name. The committee are now busy collecting exhibits. One of the first is now on the ground, and is the original Ford car, made by Henry Ford to the order of Noah when he returned from his cruise over Asia Minor. We presume the Owl will now take in hand to prove that Henry Ford couldn't have lived so long over 2,000 years ago, and that autos weren't built 40 years ago. We would point out that Henry Ford can do anything, from taking a Peace Party to Europe to running for President of the U.S.A. This relic is placed in the lake residence of John Fortune to demonstrate that the horse has not yet, after this lapse of time, been able to supplant the automobile.

"Your father is an old crank," said Gavin when her father had told him eleven o'clock was time to go. Father happened to over hear the remark. "A crank is necessary in case of the lack of a self-starter," he retorted. Considering what the Crown Prince has done to the Germans at Verdun, the Turks should receive with dread the news that one of the Kaiser's sons will join their army shortly. The soldier in the train was dilating on his changed life. "They took me from my home," he said, "and put me in barracks; they took away my clothes and put me in khaki; they took away my name and made me 'No. 576'; they took me to church, where I'd never been before, and they made me listen to a sermon for forty minutes. Then the parson said: 'No. 576, art thou weary, art thou languid, and I got seven days C.B. for giving him a civil answer.'"

"Doctor, I am troubled with cold extremities; what do you suppose is the cause?" Dr. Laughaum—"Cold weather; one dollar please."

"I say, what are you people so proud about? Last time I was in Lacombe every one was very friendly, and now everyone seems to have the swell head." Alex. Leslie—"You'll pardon us, but it's our town pride. You see, Norm Morrison picked up a guide book that fell from a Lacombe & Blindman Valley train last week, and we found the pond by Puffer's old slaughter house is a beautiful mountain tarn; Victor's old truck-year historic relics; the Arlington House a wayside Inn, and the whole country chuck full of historical antiques and delusions."

"There is a real idea back of everything," the Owl writes. "Yes, all the way from one to two thousand years back."

Bill B. Lee—"I think I will start a magazine to be called 'Imbrage.' C. B. Halpin—"Why that somewhat unusual name?" Bill B. Lee—"People are so apt to take it."

When in Lacombe last week we were accosted by a youth who desired to sell us a pamphlet entitled "Armageddon." We weren't having any, however. Persons of years (the Owl makes us afraid to say how many) have been prophesying the end of the world, and have been able to demonstrate to their own satisfaction the day when it would happen by their own interpretation of texts and phrases in the Bible. A great many of their certain days are long past and the end is not yet. These religious cranks who try to twist and turn Scripture to prove the date of the coming end of the world seem to have forgotten that Christ said, "The Son of Man cometh in a day and hour that we not not of." If He said that His last coming would be unexpected, would He supply us with clues so that we could know positively when the end was coming? We think not. "The just shall live by faith." If we live as if we expected this to be our last day, and we wanted to hear the first call of Gabriel's trumpet, if we try to deal with every man as we would like him to deal with us, we don't need to worry about Armageddon or the end of the world. We have always understood that Armageddon signifies the final triumph of right over wrong. We can all fight a little Armageddon each day on our own account, and by making right triumph over expediency help to make things better for ourselves and our neighbors. We notice that those people who read and say they believe the prophecies as to the near end of the world so glibly proven do not seem at all inclined to part with their real estate at any reduced prices.

They were at the picture gallery, and they stopped before a beautiful painting. "I wonder what that represents," he said; "the youth and maiden are in a very tender attitude." "Oh! I don't you see?" she answered; "he has just asked her to marry him, and she has accepted him."

"Oh! yes," he exclaimed, "and how appropriate the title." "I don't see it," she said in surprise. "Why that card at the top says 'Sold.' Then she asked him to call a cab."

Several ladies were at the Ladies' Aid Meeting and were discussing the virtues of their husbands. "My husband," said one of them, "never drinks and never swears; indeed he has no bad habits." "Does he ever smoke?" someone asked. "Yes; he likes a cigar just after he has eaten a good meal. But I suppose, on an average, he does smoke more than once a month."

He was at the Woodbine races as usual—the chap who has just come straight from the paddock—and got a tip on the winner of the final race. He met his friend and advised him to back Pogo-Top. "Have a bet on him; he'll win at 10 to 1," he said. "But what good is that?" replied the other; "it's after two o'clock now."

We wish to inform the buying public that all stores in Clive will be closed on Dominion Day, July 1st. This being on Saturday the stores have made arrangements to open up in the evening from six to ten p.m. to give shoppers a chance to do their purchasing.

**Funeral of Mrs. Grose**  
The funeral of Mrs. Joseph Grose took place on Thursday afternoon at the Methodist Church, where the funeral services were conducted by Rev. W. L. Bradley, assisted by J. N. Longstreet. The choir lead in the hymns, "Peace, Perfect Peace" and "Lead Kindly Light," followed by anthem. The church was filled with sympathetic friends. Interment took place in Clive Cemetery. The chief mourners were: Mr. Joseph Grose, Mrs. J. C. Grose, Erskine, Mr. and Mrs. J. H. Grose, Pleasant Valley, Mr. and Mrs. Wm. Sharp, Pleasant Valley, Mrs. E. G. Glenville, Pavilion, B.C.; Mrs. Mercia D. Fletcher, Seattle; Mr. and Mrs. W. T. Bowley, Edmonton; Mr. Wilmer Grose, at home.

**REDMOND FIRST IRISH PREMIER**  
Dublin, June 15.—The establishment of a home rule parliament here is generally anticipated. It is supposed that Dublin Castle will be the home of the new legislature. A preliminary election will be unnecessary as the present Irish members of the imperial parliament will constitute the new assembly, but it will be necessary to form a senate, partly elected and partly nominated. John Redmond, probably, will be the first Irish premier.

**SEALED TENDERS** addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until 4.00 p.m., on Wednesday, June 28th, 1916, for the supply of coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained at this Department and on application to the caretakers of the different Dominion Buildings.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures. Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so or fail to complete the contract. If the tender is not accepted the cheque will be returned.

By order,

# The Big Contest is Nearing the Close

On July 4th the Western Globe Great Circulation Campaign closes, and on that date one of the contestants will be the proud owner of an up-to-the-minute car—a 1916 "Four-Ninety" Chevrolet—or its equivalent in cash. The non-winners will receive 10 per cent. of all monies turned in to the Campaign Manager.

The standing of the candidates is published in the advertising columns of this issue—that is, the standing of the candidates up to Monday night so far as returns have been made to us. The writer is of the opinion (strongly held) that the contestants are holding back votes for the final day—July 4th—at midnight—it looks very much like it anyway.

Candidates who have not been heard from have been omitted from the list published elsewhere in this issue.

You have just 13 DAYS MORE to get your complete returns to the Campaign Manager. Your chances are just as good as they were on the day the contest opened. There is no question but

that the WORKER will win out in the end, and the Prize is worth working for.

As will be seen by the standing of the candidates are pretty well bunched, only a few dollars difference between the lowest and highest. A few five or ten-year subscriptions would twist the whole standing around considerably.

Let these last few days of the contest be the busiest ones you have yet spent. Get subscriptions, but don't forget that you will have more votes to your credit from one two-year subscription than if you secure two one-year subscriptions, and so on up to ten years; the number of votes increase with each added year—look at your schedule. Please remember this and let your friends know, because they will often add the extra dollar in order that you may have the benefit of the extra votes, and it's the one who has the most votes to his, or her credit who will win the car.

So keep busy and win that car.

## RUSSIANS DISCOVER DESTRUCTIVE SHELL

Petrograd, via London, June 16.—The Russian artillery has been magnificent throughout this war, but on the present occasion has exceeded its own highest records. The effect upon the enemy has been terrifying, and a general panic usually has ensued. The Russians have invented a new shell and have used it in incredible quantities. Its deadly results are seen in the official bulletins. Nothing can be said, of course, about the nature of the new shell. It is said that it admits of no effective defensive reply. The universities of Russia have been busily employed for 12 months past vying with one another in a search for some superior form of effective shell.

### "A PYRRHIC VICTORY"

The Philosopher dropped in to remark, "If the Germans take Verdun, it will be a Pyrrhic victory." Since the rest of you do not read history like the philosopher, it may be necessary to explain that Pyrrhus, from whose name the word Pyrrhic comes, won a victory over the Romans at Asculum, 279 B.C., in which the flower of his army was killed. His comment upon the matter freely translated, was: "Let me win one more victory like this, and they've got my goat."

### FARMING SPECIAL

The Department of Agriculture of Alberta has just completed arrangements for the Annual Mixed Farming Special Train to visit different parts of the Province, commencing June 23rd at Cowley. The train this year will be more complete than ever, no pains being spared to make each department as interesting and attractive as possible.

The train will consist of fourteen cars in all, comprising live stock, dairy appliances, grains, grasses, weeds, models of sheep and pig pens, and poultry houses, exhibits from the Demonstration Farms and Schools of Agriculture, and a car of stuffed and mounted wild animals and birds native to the Province.

Lectures will be given on the various branches of live stock and field husbandry; also on domestic science and home nursing. A special car will be provided where children can be amused while their mothers attend the domestic science lectures.

The train will be at Lacombe from 2 p.m. till 5 p.m., July 8th, and everybody is cordially invited.

## BASE BALL

(By "Slug Three")

LACOMBE BALL TEAM WON FROM BLACKFALDS

Mickey McLeard took his Lacombe Colts to Blackfalds on Friday evening of last week for the purpose of "trying them out" against a good "team" of "high-stoppers," but they weren't stepping as high as usual that evening, so Manager McLeard did not press the Colts to any extent, and at that they won in a "canter," the Blackfalds "team" being left at the "half-post," 12 to 6; yes, we believe that's right.

And the crowd—it was a good-natured one, many loads of human freight having arrived from the urban district surrounding that once thriving burg—Blackfalds.

And the rain—yes, there was a few drops fell that evening, in fact they were the biggest drops we have seen drop for many and many a long day. Those drops kept dropping for at least four minutes, at the end of which time the grand-stand was completely deserted, the occupants having sought shelter in the school building, under the canopy of awnings, behind picket fences, etc., etc.

Of course the baseball game (for that's what we're talking about, or trying to talk about) was disturbed by the downpourings of the H-O-Z, but proceeded immediately afterwards, the diamond not being too bad; that is in spots. The two spots that suffered the worst was the hip-shot artist's box the catcher's rendezvous.

Yes, there was an umpire officiating at the game—at least that's what they call a man who says "ball in," "a-b-r-i-k-e tu," etc., etc. Now let it be understood that this particular umpire, did his very best (we believe that), but what he didn't know about base ball would furnish an excellent base ball guide for the major leagues. The Colts were not the only sufferers by some of his decisions—oh, no; he handed out a few to the representatives of his own village. That's all we have to say about this matter, but we hope by this time he is the happy possessor of a base-ball rule book; you never can tell what a studious man will make of himself.

As to the game itself—it was good in spots, but the spots were too few and too far between. The Lacombe infield at times gave a fine exhibition of just how the game should be played, the two particular stars in this respect being Del Garland and Guy Denner. Their throwing to first, from short and third, after brilliant fielding, being very accurate. They were followed closely by the playing of Manager McLeard at second.

As to the Lacombe outfield's playing on that particular evening we cannot say that it was brilliant because it was far from it, there being too many boozles, fumbles, and oozles—that's all, and that's enough. But with the hickory each and every man of the team was right there doing "his little bit."

Metzger went into the box for Lacombe, but in the first two innings those world-beaters took so kindly to his offerings that Manager McLeard decided to make a change, sending in Cliff Denner. It certainly was Metzger's "night off" for pitching, Blackfalds securing four runs in the first two innings. But then, a "night on" for Denner's "pitch on." He held them solidly for the last seven innings.

For Blackfalds the outfield was easily the best. They gave some fine exhibitions of just how their respective positions should be played. Milliken, who was in the box for Blackfalds, did well for a time, but fell by the wayside in the fourth inning, the visitors securing some five or six runs. He was replaced by Wheeler, who did somewhat better for the balance of the game.

The writer has not changed his opinion of that Blackfalds team since the day he saw them play at the Fair Grounds last year. He thinks they are a most-likely looking lot of ball-players, and he still maintains, with proper management, that they will give the best teams between Calgary and Edmonton one of the best runs they ever had for their money.

There is no doubt but that the citizens will turn out en masse when the return game is played in Lacombe. The following players represented Lacombe: R. Metzger, pitcher and first base. Cliff Denner, first base and pitcher. L. Steers, catcher. F. McLeard (Manager), second base. Guy Denner, short-stop. —Kerns, right field. Jack Hall, centre field. Ray Bullis, left field.

**"We Give Our Sons"**

Such our proud cry—a vain and empty boast;  
Love did not ask so great a sacrifice;  
The first reveille found you at your post;  
You knew the cost; clear-eyed, you paid the price;  
Some far clear call we were too dull to hear  
Had caught your ear.  
Not ours to urge you, or to know the voice;  
No stern decree you followed or obeyed;  
Nothing compelled your swift unerring choice,  
Except the stuff of which your dreams were made;  
To that high instinct passionately true,  
Your way you knew.  
We did not give you—all unasked you went,  
Sons of a greater motherhood than ours.  
To our proud heart your young bright lives  
Were lent.  
Then swept beyond us by resistless powers,  
Only we hear, when we have lost our ally,  
That far clear call.

## Russia Wins Great Victory Over Huns

Petrograd, June 18.—The breaches by the Russians on the southwestern front, spreading fan shape from 30 to 40 miles in the rear of the Austrian line, now have effectively separated the three main Austrian army groups operating between the Pripiet and Bukovina. Continued retreat of the more advanced portions of the Austrian forces is occasioned, therefore, more from strategic reasons than because of actual pressure applied by the Russians.

The primary object of General Brusilov's campaign is not the taking of lost territory and, although it is quite conceivable that Lemberg may be caught in encircling movements developing from flanking attacks on Lutsk and Czernowitz, the chief aim of the Russian advance is obviously to destroy, or at least cripple the Austrian army. The tremendous number of prisoners taken by the Russians up to the present, roughly estimated at 165,000, with additional losses of killed or wounded of 150,000, attests to the success of the Russian campaign in accomplishing this aim.

Military commentators attach the effect of the present Russian advance with that of the German advance last summer, which yielded much larger gains in territory without, however, in any sense, destroying the integrity of the Russian army. The last day's news records the continual success of the Russians in the districts of Lutsk, the lower Strips and Czernowitz. On the middle Strips north of Tarnopol the Austrians are holding their own.

Near Lutsk the gap in the Austrian line has been further widened by the northward progress of the Russians to Sokol and the forest of Rostok, which fell after a hard struggle. The Russian penetration northwest of Bucacz also is important in opening up the way to Lemberg, the approaches to which they defended with the utmost stubbornness.

Petrograd, June 18.—The capture by the Russians of Czernowitz, capital of the Austro-Hungarian crown land of Bukovina, was officially announced today by the Russian war office.

On the front of General Brusilov's army the enemy maintains his resistance, making repeated counter-attacks, which our troops repulsed successfully, pressing the enemy more closely in various divisions and taking prisoners and booty.

Yesterday, at four o'clock in the afternoon General Lechnitzky's troops captured by assault the bridgehead at Czernowitz, on the left bank of the Pruth. After desperate fighting for the passage of the river, where the enemy had destroyed the bridges, we occupied Czernowitz.

Vienna, via London, June 18, 7 p.m.—The evacuation of Czernowitz by the Austrians, after the Russians had forced a passage of the Pruth and penetrated the city was announced by the war office today.

Yesterday, says the official statement, the garrison of the bridgehead at Czernowitz, with-  
drew before superior enemy fire. During the night the enemy, at several points, forced a passage of the Pruth, and penetrated Czernowitz, which we evacuated.

INCREASES RUSSIAN VICTORY

The Copenhagen Dagbladet says that in the recent fighting in the Baltic between Russian torpedo craft and German war vessels which were convoying merchantmen, two German auxiliary cruisers, the Herzsprung

and the Konig Von Sachsen, and two trawlers were sunk by the Russian, in addition to ten merchantmen.

### THE RUSSIAN ADVANCE

The Russians now have Czernowitz, the capital of Bukovina, and are proceeding rapidly on their conquering way. They have won in less than two weeks, with comparatively no loss at all, vastly more than the Germans, at such terrible cost, have won on the Verdun front, added to what the Austrians, also at heavy cost, won on the Italian front. In addition to the territory which they have gained so speedily, they have captured more than 150,000 able-bodied troops and put out of action a force quite as large as that. The success is amazing when it is considered that this advance has been at very little cost at all. The strength of the Russians in that part is even greater than at the beginning of the war, and the effect of this advance upon the Balkans cannot well be calculated.

The future policy of the Russians has not been clearly outlined. Whether they will recapture Lemberg and follow along the march made before, or proceed to invade Hungary, is not quite shown by their present methods.

A more likely alternative, however, would be the winning over of Rumania by the demonstration of Russia's dominating force in Bukovina on the Rumanian border. The good will and possibly the military support of Rumania once gained, Russia could at last strike through Rumania at Bulgaria.

In this plan the co-operation of the Franco-Serbian force at Saloniki would bring in the Bulgarians, a crushing force and the entente's mastery of the Balkans, with the isolation and surrender of Turkey, could be expected in three months.

If Rumania is convinced by the events of the next fortnight this programme, for which the Saloniki force has been preparing for six months, becomes feasible. The downfall of the southeastern end of the Teutonic combination would open up Russia via the Black Sea and seriously imperil Hungary, threatened on three sides. But if Rumania fails to enlist with the entente, the Russian invasion of Hungary via Galicia and Bukovina, once preliminary successes were gained, would remain feasible. The Russian programme is therefore a blow with an extra sting to it.

The capture of Czernowitz is the end of the second chapter of the Russian invasion. What will be the next move in the great drive?

### LAST MOMENTS OF HAMPSHIRE ARE DESCRIBED

London, June 18.—Details of some of the incidents on board the British cruiser Hampshire just before she sank off the Orkneys last week, causing the death of Field Marshall Earl Kitchener, are given in an official statement issued tonight, based on statements by the dozen survivors of the cruiser who were washed ashore on a raft.

"From the reports of the twelve survivors of the Hampshire," says the statement, "the following conclusions were reached:

"As the men were going to their stations before abandoning the ship, Lord Kitchener, accompanied by a naval officer, appeared. The latter said: 'Make way for Lord Kitchener; both ascended to the quarter deck. Subsequently four military officers were seen there, walking off on the port side.

"The captain called Lord Kitchener to the forebridge, near where the captain's boat was hoisted. The captain also called Lord Kitchener to enter the boat. It is unknown if Lord Kitchener carried it or what happened to any boat."

"The Hampshire was proceeding along the west coast of the Orkneys. A heavy gale was blowing and seas were breaking over the ship, which necessitated her being partially battened down. Between 7.30 and 7.45 p.m., the vessel struck a mine, and began at once to settle by the bows, heeling over to starboard before she finally went down about fifteen minutes later.

"Orders were given by the captain for all hands to go to their established stations before abandoning ship. Some of the hatches were opened and the ship's company went quickly to their stations. Efforts were made, without success, to lower some of the boats. One of them was broken in half and its occupants were thrown into the water.

"Large numbers of the crew, used life-saving belts and met coats which proved effective in keeping them afloat. Three rafts were safely launched, and with about 50 to 70 men on each, got away, in one case, out of over 70 men aboard, only six survived. The survivors all report that the men gradually dropped off, even died aboard the rafts, from exhaustion and exposure to cold. Some of the crew must have perished in trying to land on the rocky coast after such a long exposure. Some died after landing."

### HOW PROHIBITION IS "KILLING" DENVER

Denver under prohibition! The very idea is a startling one, and when Colorado went dry on January 1, 1916, the "drys" freely predicted the utter ruin of business, and even some of the "drys" wondered how Denver would stand it. But nearly four months have gone, and the business men of Denver are beginning to realize that they are not dead yet, and some of them are even hopeful of surviving for some time to come. Here are a few of the facts. The Gas and Electric Light Co. had prophesied a drop of \$150,000 a month, but instead the very first month showed a gain of \$10,000. The banks also had been afraid of the dry spell, but the first month gave them 2,000 new deposits, which aggregated \$667,030. The department stores report that their collections are just 24 per cent. ahead of a year ago. There has been, however, quite a heavy slump reported by the pawnshops. Prohibition appears to be distinctly unfavorable to them, and it also hits the undertakers rather a hard blow. The Italian Methodist Episcopal Mission has been furnishing free meals for 150 poor children, and since prohibition went into force they have not been able to find the poor children. They now eat at home. In building permits for February, Denver showed an increase of 185 per cent. over last year, while the average increase for 142 United States cities was only 21 per cent. Evidently the lack of whiskey does not kill a city very rapidly.

GREECE DEMOBILIZES

Athens, via London, June 13.—King Constantine decided today to order the complete demobilization of the Greek army.

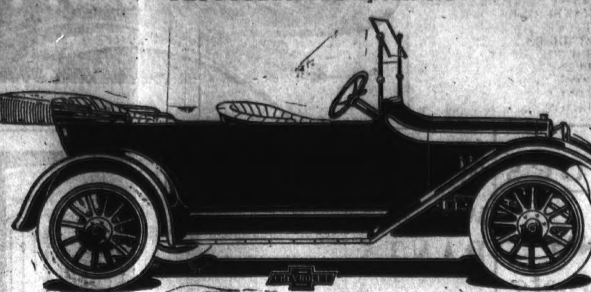

### HUN MEMBERS MUST RESIGN

London, June 15.—The chamber of commerce today passed a resolution requesting all members of German or Austrian birth, even if naturalized subjects of Great Britain, to resign.

"The Product of Experience"

PRICE COMPLETE \$750 LACOMBE

Regular equipment. Mohair Tailored Top. Envelopes and Side Curtains. Electric Horn. Clear Vision Ventilating Wind Shield. Speedometer. Electric Starting and Lighting System Ammeter and License Brackets.

NOTE—Owing to the great demand for this car, we would suggest placing your order early to ensure delivery.

### It's a Good Looker

The body is of the streamline type, with deep cowl, extra wide doors, flush sides, concealed hinges, wide seats and spacious leg-room. It has all the appearance of an expensive car.

### It's an Easy Rider

The front springs are duplex and are shock-absorbing; the rear springs are very long cantilever suspension type, making this the easiest riding car for its size in the world.

### It's an Easy Driver

It has a compound steering gear, composed of spur gears and sector attached to body—the simplest and safest ever invented. It steers properly and, like a heavy car, without any extra appliances.

### It's Powerful and Quiet Running

It is of the celebrated valve-in-the-head type, the design, balance, proportion and accuracy of time resulting in a motor which produces as much power for its size and weight as any in the world. It doesn't have a single hinge joint, no squeak or a spring shackle to rattle, and there are only six grease cups in the entire car. It runs quietly, even on low speed. It is a finished, complete 1916 automobile for \$750 f.o.b. Lacombe.

### SEEING IS BELIEVING

See the car and let us demonstrate these facts to you. We have ordered the bulk of repairs we think will be required. A full and complete stock of all repairs will be kept in Calgary, Red Deer, and Edmonton, and anything we do not happen to have on hand can be ordered by phone at a minute's notice. All repairs are very moderately priced. Call in and see our Catalogue of prices for all parts.

We use the Stewart Speedometer. Two-unit "Auto-Lite" Starting and Lighting System with Bendix Drive, same type and grade as used on the higher-priced cars.

## Foster's Weather Report

As we see it, this is one of the great Hot Storm years. We are expecting disastrous storms in July, and very severe storms in June. These great storms are expected to include destructive hail storms, and farmers should insure against hail. These hail storms are close kin to tornadoes and thunder-storms.

Storms are 1,000 to 2,000 miles in diameter, and our efforts are to locate their central parts. This storm will affect the whole continent and reach into the Mexican Gulf.

### Judicial Sale of Farm Property

Pursuant to the Judgment and the Final Order for Sale, made in a certain action in the Supreme Court of Alberta, Judicial District of Calgary, by the Master in Chambers, there will be offered for sale, by Public Auction, by Samuel W. Paisley, Auctioneer, on Wednesday, the 21st day of June, A.D. 1916, at the hour of 11 o'clock, in the forenoon, at the Post Office, in the Town of Lacombe, in the Province of Alberta, the following described property, namely:

The N.W. Quarter Section 12, Township 44, Range 28, West of the 4th Meridian, in the Province of Alberta.

The property consists of 160 acres, 5 acres of which have been cultivated, 5 acres is clear open land, 140 acres good arable land partly covered with timber. About ten acres are taken up with a slough. The soil is black loam, from 2 to 4 inches deep, with clay subsoil, and the land is fenced on all sides with two strands of wire.

The land is now unoccupied, and is 17 miles from Lacombe, the nearest town, and is 24 miles from nearest school-house. The buildings on the lands consist of one frame house, 20 x 30, with a kitchen 12 x 14, and other small outbuildings.

Terms of Sale.—15 per cent. deposit at the time of the sale; ten per cent. in 90 days without interest; 20 per cent. in 9 months; 25 per cent. in 18 months, and the balance in two years from the date of the sale, the last three payments to bear interest at the rate of 8 per cent. per annum from the date of the sale.

The property will be sold subject to a reserved bid to be fixed by the Master in Chambers.

For further particulars apply to G. A. TRAINOR, Solicitor, Lacombe & Lineham Block, Calgary, Alta.

Dated this 29th day of May, 1916.

LAWRENCE J. CLARKE, Clerk of the Court.

Approved: L. F. Clarry, M.C. (M. 31-36)

### SHEEP OWNERS ATTENTION

All sheep owners who wish to get the most money for their wool should sell through the Lacombe Wool Growers' Association. **WRESTLING MATCH**

6 p.m.—Bjornson, of Bentley, vs. Becker, of Rimbey.

9 p.m.—Dance in Town Hall.

Born—To Dr. Byers and wife, on June 14th, a daughter.

Mr. and Mrs. Bert Williams motored up from Bentley to witness the ball games on Friday afternoon.

Married—At the home of the bride, on Wednesday, June 14th, 1916, Mr. Clifford Hewitt and Miss Mabel Budd. These are two of our most popular young people, and will reside in their new home recently built by Mr. Hewitt.

The ladies of the M. E. and English Churches will serve dinner on July 1st. The ladies met at the home of Mrs. Hathaway on Saturday afternoon and appointed their committees.

There will be two car-loads of hogs from this vicinity to Lacombe on Tuesday.

Mrs. Bargan, who lived near La Vesta, committed suicide on Wednesday of last week, and the body was taken to California for burial.

If reports are true we are to lose some of the residents of our village soon. Rev. Hathaway and wife to be transferred to Lacombe, and Mr. and Mrs. Glen Marshall will soon be going back to the country.

M. E. Churches have decided to join and serve lunch in the hall on July 1st. They will also have an ice cream counter on the ground on that day. Lunch will be served from 11:30, and will consist of cold ham and chicken, with all kinds of salads, pickles, pies, cake, and so on. The price will be 25c; children, 15c. We are sure that at this price there will be no need to be worried about packing lunch baskets. Help others by helping yourselves.

The members of the Red Cross will meet on Friday afternoon at the home of Mrs. W. Brooks for knitting and sewing.

## Blackfalds News

Miss McGregor, Field Secretary of the Women's Missionary Society of Canada, will give the address at the Sunday evening service in the Presbyterian Church. She is a most delightful speaker, and we are very fortunate to have the privilege of hearing her.

Rev. Corcoran preached his farewell sermon last Sunday evening in the Methodist Church. He is moving to Springbank, Alta., this week.

L. A. Hill sold a car of lumber last week to Mrs. Phillips, who is about to build a store at Haynesiding.

On Saturday afternoon the senior pupils of the Public School held their annual picnic at Jack Fish Lake.

Chester Miller now sports a new top buggy, and no longer worries about local showers.

The Red Deer C.P.R. ball team, somewhat reinforced, played their return game here last Tuesday evening. The Tigers had no trouble solving Ely's twisters, and batted in some 11 runs. Karl Sorenson pitched a splendid brand of ball for the locals, and three runs were all Red Deer managed to tally. It was a good team game, and those on the bleachers thoroughly enjoyed seeing the home team win.

On Friday evening the Lacombe ball team came along and took some of the starch out of the Tigers, by defeating them 12-8. To make a long story short, Miliken sent the balloon up in the fourth inning when he became unable to find the corners of the plate and allowed a half dozen runs to be scored. Up to that time the locals were in the lead. Wheeler came to the rescue and pitched good ball for the rest of the game. Blackfalds outfield and Lacombe's infield played good ball and gave their respective pitchers fine support, but we're not saying anything about the "plays not played" by the local infielders and the fumbles of Lacombe outfielders. A

shower of rain chased the players of the field in the fourth inning, but it was not heavy enough to make the diamond muddy. Metzger, who opened for the visitors, was pounded out of the box and Danner replaced him in the third inning. C. Miller umpired in a satisfactory manner.

The item in your paper of some weeks ago, with reference to Mr. Bishop being engaged, to take charge of the school for another year, is without foundation. Mr. Bishop has not applied for the position, neither has the school board ever taken the matter up.—E. E. Matthias, Chairman.

## Bentley News

Monday, June 19th.

The weather is apparently not settled yet; roads are rough, but crops are booming.

The Y.M. Class team met another defeat at the hands of the Rimbey ball team, at Rimbey, on Friday last.

The Bentley team and rooters who visited Rimbey on Friday last were caught in the rain on their way home; also, some Bentley fishermen were caught out on the lake with a stalled motor boat at the same time.

The "Jitney" got caught helplessly on Friday last, in the hills by the eloquence of William Jennings Bryan, much as he has moved the emotions of democratic conventions for 20 years, the committee on resolutions was putting the finishing touches on the party platform. It will be adopted tomorrow.

Before beginning its work of officially declaring Mr. Wilson and Mr. Marshall the party candidates, the crowded convention hall echoed and rocked with the tumult of a greeting to Mr. Bryan.

Senator James introduced Mr. Bryan as "one of the leading citizens of the world and America's greatest Democrat."

Mr. Bryan's speech was a ringing endorsement of President Wilson's administration. He alluded to differences of opinion that

may exist, but declared the party stood united in every state and ready for the battle. Touching on Mexico and the European war, Mr. Bryan said:

"We inherited from a Republican administration an insurrection in Mexico. This administration has dealt with that situation, and the Republican party dare not challenge a verdict before the country on the main situation."

"We have a few men interested in ranches, and a few interested in mines who would use the blood of American soldiers to guarantee profits and their investments in a foreign land. But that is not the sentiment of the American people. The people of this country stand back of Woodrow Wilson, in his determination not to intervene in the affairs of Mexico."

"But, my friends, the president not only has had to deal with the war to the south of us, but with war to the east of us. I have differed from our president on some of the methods employed in this war, but I am one of those who desire sincerely that this nation shall not become a participant in the dreadful conflict."

Mr. Bryan finished at 10:10 p.m., and nominations for president began a few minutes later. Alabama yielded to New Jersey, and Judge John Westcott, in an eloquent speech, nominated Woodrow Wilson. As Judge Westcott closed with a mention of the name "Woodrow Wilson" the crowd broke into a great demonstration which lasted 30 minutes.

The debate at the meeting of the Young Men's Class, on Sunday night, on the subject, "Resolved, that consolidated schools are more preferable than the present school system" was well debated by the boys, and the hopes awarded the negative the decision on points.

A big celebration is being arranged for Bentley on July 5th. See bills later.

## Gilby News

Dick Sambrooke was hauling oats to Eckville last week.

Mike Sestrap, the Eckville merchant, spent the week-end at his store in Gilby.

A dance was held in the Anderson school-house on Friday evening. Everybody reports a good time.

Gilby is the latest city to adopt the daylight saving plan.

After the medals and garters had been handed around in connection with the King's birthday honors, one deserving case went by unnoticed. The Grand Order of the Boot should have been conferred upon Armand Lavergne before he retired from the Legislature.

## WILSON RENOMINATED WITH ENTHUSIASM BY DEMOCRATS

St. Louis, June 15.—In a setting intensely dramatic and spectacular, the Democratic national convention tonight formally nominated Woodrow Wilson as a candidate for president, and Thomas Riley Marshall, respectively, for president and vice-president of the United States. No other names were offered.

At the mention of Wilson's name by John W. Westcott, of New Jersey, who nominated him, cheering and general demonstration lasted more than half an hour.

While the convention was being thrilled earlier in the night by the eloquence of William Jennings Bryan, much as he has moved the emotions of democratic conventions for 20 years, the committee on resolutions was putting the finishing touches on the party platform. It will be adopted tomorrow.

Before beginning its work of officially declaring Mr. Wilson and Mr. Marshall the party candidates, the crowded convention hall echoed and rocked with the tumult of a greeting to Mr. Bryan.

Senator James introduced Mr. Bryan as "one of the leading citizens of the world and America's greatest Democrat."

Mr. Bryan's speech was a ringing endorsement of President Wilson's administration. He alluded to differences of opinion that

may exist, but declared the party stood united in every state and ready for the battle. Touching on Mexico and the European war, Mr. Bryan said:

"We inherited from a Republican administration an insurrection in Mexico. This administration has dealt with that situation, and the Republican party dare not challenge a verdict before the country on the main situation."

"We have a few men interested in ranches, and a few interested in mines who would use the blood of American soldiers to guarantee profits and their investments in a foreign land. But that is not the sentiment of the American people. The people of this country stand back of Woodrow Wilson, in his determination not to intervene in the affairs of Mexico."

"But, my friends, the president not only has had to deal with the war to the south of us, but with war to the east of us. I have differed from our president on some of the methods employed in this war, but I am one of those who desire sincerely that this nation shall not become a participant in the dreadful conflict."

## ADDED ANOTHER PAGE TO TRADITIONS OF BRITISH NAVY

London, June 18.—An official communication issued this evening gives an account of a recent visit by King George and an address by the monarch to the representatives of the units of the fleet, and of the parade. In his address King George said:

"Admiral Jellicoe and officers and men of the grand fleet; 'You waited nearly two years with most exemplary patience for the opportunity of meeting and engaging the enemy's fleet. I can well understand how trying was this period, and how great your relief when you knew on May 31 that the enemy had been sighted. The unfavorable weather conditions and approaching darkness prevented that complete result which you all expected. But you did all possible in the circumstances. You drove the enemy into its harbors and inflicted on him very severe losses. You added another page to the glorious traditions of the British navy. You could not do

more. For your splendid work I thank you."

At the conclusion of his visit the king sent the following message to Admiral Jellicoe:

"I am thankful that I had the opportunity of congratulating you and the grand fleet on the result of the recent engagement in the North Sea. Assuring all ranks and ratings that the name of the British navy never stood higher in the eyes of their fellow countrymen, whose pride and confidence in their achievements are unabated. Good luck and God speed. May your future efforts be blessed with complete success."

King George left London Tuesday evening to visit the fleet, and returned to London today. During the course of his tour he inspected the whole of the grand fleet, and visited all the wounded men from the Skagerrak fight in the various hospitals.
